

Proposed Strategies for Action

- Provide multi-modal connections to open spaces and recreational opportunities within and near Overlake Neighborhood
- Coordinate new open spaces with new development in the Overlake Village
- Develop regional stormwater facilities in the Overlake Village
- Create a Low Impact Development (LID) incentive program for Overlake Neighborhood
- Consider the location for a future community center that is accessible to the entire neighborhood
- Support the development of private open spaces and recreation opportunities in the Employment Area
- Encourage the use of native and drought resistant plants in open space
- Encourage the use of features such as rain gardens and landscaped swales when designing open spaces
- Ensure quality of public and private open spaces
